

BIG W 1650 GALLON TANK TRAILER

The Big W 1,650 gallon tank trailer is designed for transporting liquid products on the road and/or for nursing in the field. The 1,650 tank trailer low profile design is a great choice for transporting a larger volume of liquid products. The larger capacity allows more bulk storage and supports more equipment in the field than the 1,025 gallon trailers.

1650 GALLON TANK TRAILER
